WORK EXPERIENCE

Senior PHP Web Developer
Get Group

08/2023 - Present   *Lahore*

- Built and maintained scalable applications using Laravel (v8–12) and CodeIgniter with MySQL/MongoDB.
- Implemented multistorage file uploads across AWS, Wasabi, DigitalOcean, and GCP.
- Collaborated with product, design, and QA teams to deliver features efficiently.
- Integrated AWS services and CI/CD pipelines for improved scalability and deployments.
- Designed and integrated **RESTful APIs** and contributed to a **microservices-based architecture**.
- Implemented **real-time features** using Node.js and optimized server-side performance across distributed systems.
- Deployed Express.js, React, and Laravel apps on VPS with Nginx, SSL, and performance/security tuning.

Laravel Developer
Virtuenetz

01/2022 - 08/2023   *Rahim Yar Khan*

- Optimized MySQL queries improving performance and ensuring data integrity.
- **Frontend Development:** Built responsive UI components using JavaScript (jQuery, AJAX), ensuring a smooth and dynamic user experience.
- **Cross-Browser Compatibility:** Conducted comprehensive usability testing to guarantee seamless website functionality across all browsers and platforms.

Laravel Developer
Dexdevs

08/2018 - 12/2021   *Rahim Yar Khan*

- **Web Application Development:** Assisted in building robust web applications utilizing PHP and MySQL.
- **Backend Support:** Developed APIs, server-side scripts, and managed database operations to support application functionality.
- Developed PHP-based websites utilizing **Laravel and CodeIgniter** , enhancing functionality and performance.
- Conducted debugging and optimization for application performance across the full stack.

EDUCATION

BSCS
The islamia University Bahawalpur

02/2016 - 02/2020

SKILLS & EXPERTISE

Backend Development: PHP (Laravel v8–12, CodeIgniter), Node.js, Express.js, RESTful APIs, Microservices

Databases: MySQL, MongoDB, Eloquent ORM, Query Optimization

System Tools: Queues, Scheduler, Git (GitHub/GitLab), CI/CD

Payments & Integrations: Stripe, PayPal, Third-Party API Integration

Frontend Collaboration: JavaScript (ES6), HTML, CSS, Tailwind, Bootstrap

Cloud & DevOps: AWS, DigitalOcean, Wasabi, GCP, Linux Environment, VPS deployments (Laravel, Express.js, React, Nginx, SSL, PM2)

PROJECTS

Official Raabta app for PTI
Developed Raabta app backend serving 1M+ users, managed AWS infrastructure & security

LInkon
Developed Linkon.social using CI4, including backend APIs for web/mobile apps, server management, and admin panel.

Ingage
Developed the app, web platform, admin panel, and managed servers for ingage.gg , a gaming tournament management platform.

Club92
Created and manage Club92, a live audio space platform like Clubhouse, handling backend APIs, server management, and installation.

Bracktix
Architected, developed, and optimized backend services for Bracktix using Laravel, MySQL, queues, caching (Redis), authentication (Sanctum), and cloud deployments, ensuring scalability, performance, and security.

Shaadiabroad
Managed backend for ShaadiAbroad.com, ensuring platform security, scalability, and performance. Integrated event management features and maintained data privacy compliance.

Gtcree
Developed a modern e-commerce platform for LED lighting products, managing backend APIs, admin panel, and a streamlined shopping experience.
