Profile

Senior Laravel Developer with 6+ years of experience delivering scalable, secure applications using PHP, Laravel, and MySQL. Skilled in RESTful APIs, MVC architecture, database optimization, CI/CD, queues, caching, and cloud deployments (AWS, DigitalOcean). Strong team collaborator with proven experience in Agile/Scrum environments using Jira for sprint planning, task tracking, and issue management.

WORK EXPERIENCE

08/2023 – Present
Lahore

Senior PHP Web Developer

Get Group

- Developed, maintained, and scaled high-performance web applications using **PHP, Laravel (v8–12), and CodeIgniter**, with **MySQL and MongoDB** as primary data stores.
- Designed and implemented **secure, scalable RESTful APIs**, contributing to a **microservices-based architecture** for modular and maintainable systems.
- Built and managed **multi-storage file upload solutions**, storing and retrieving files across **AWS, Wasabi, DigitalOcean, and Google Cloud Platform (GCP)**.
- Implemented **real-time features using Node.js**, optimizing server-side performance across distributed systems.
- Deployed and managed applications on **VPS and cloud environments**, handling **Linux server configuration, Nginx setup, SSL installation, and application optimization** via SSH/command line.
- Integrated **AWS services** and established **CI/CD pipelines** to streamline deployments, reduce downtime, and improve release efficiency.
- Optimized database queries and backend logic to enhance **application performance, scalability, and reliability**.
- Collaborated with **product managers, UI/UX designers, QA engineers, and frontend developers** to deliver features on time within **Agile/Scrum** workflows.
- Ensured application **security, monitoring, uptime, and maintenance**, applying best practices for performance tuning and system stability.
- Mentored junior developers, conducted code reviews, and contributed to maintaining **clean, maintainable, and well-documented codebases**.

01/2022 – 08/2023
Rahim Yar Khan

Laravel Developer

Virtuenetz

Achievements/Tasks

- Designed and optimized MySQL databases, improving query efficiency and data integrity.

- Frontend Development: Built responsive UI components using JavaScript (jQuery, AJAX), ensuring a smooth and dynamic user experience.
- Cross-Browser Compatibility: Conducted comprehensive usability testing to guarantee seamless website functionality across all browsers and platforms.

08/2018 – 12/2021
Rahim Yar Khan

Laravel Developer

Dexdevs

Achievements/Tasks

- Web Application Development: Assisted in building robust web applications utilizing PHP and MySQL.
- Backend Support: Developed APIs, server-side scripts, and managed database operations to support application functionality.
- Developed PHP-based websites utilizing Laravel and Codeigniter, enhancing functionality and performance.
- Bug Fixing & Testing: Conducted thorough debugging, troubleshooting, and performance testing to ensure application stability and reliability.
- Conducted debugging and optimization for application performance across the full stack.

EDUCATION

02/2016 – 02/2020

BSCS

The islamia University Bahawalpur

SKILLS & EXPERTISE

Backend Development ● ● ● ● ●

- PHP (Laravel v8–12)
- CodeIgniter
- Node.js
- Express.js
- RESTful APIs
- Microservices Architecture

Payments & Integrations

- Stripe
- PayPal
- Flutterwave
- Paystack
- Third-Party API Integration

Frontend Collaboration ● ● ● ● ●

- React.js
- Next.js
- JavaScript (ES6)
- HTML
- CSS
- Tailwind CSS
- Bootstrap

Security & Performance ● ● ● ● ●

- Security Best Practices
- Performance Optimization

VPS Deployment & Server Management ● ● ● ● ●

- VPS Deployment & Configuration (AWS, DigitalOcean, GCP)
- Linux Server Management via **SSH / Command Line (CMD)**
- Web Server Setup (**Nginx**, SSL, Domain & DNS Configuration)
- Application Deployment (**Laravel, Node.js, React, Next.js**)
- Process Management (**PM2**, queues, schedulers)
- Server Security Hardening & Performance Optimization
- Monitoring, Log Management & Maintenance

Databases & ORM ● ● ● ● ●

- MySQL
- MongoDB
- Eloquent ORM
- Query Optimization
- postgresql

Version Control & CI/CD ● ● ● ● ●

- Git (GitHub, GitLab)
- CI/CD Pipelines

Cloud & DevOps ● ● ● ● ●

- AWS
- DigitalOcean
- Google Cloud Platform (GCP)
- Wasabi
- Linux Environment

Other Professional Skills ● ● ● ● ●

- Problem-Solving
- Team Collaboration

KEY ACHIEVEMENTS

Official Raabta app for PTI [🔗](#)

- Designed, developed, and deployed a **high-performance backend system** supporting **1M+ users**.
- Implemented clean architecture with optimized database queries to ensure scalability and reliability.
- Built secure RESTful APIs and handled production-grade deployments for a national-level platform.
- Ensured application stability, performance optimization, and smooth handling of high traffic loads.

Linkon

- Developed using **CodeIgniter 4**, building scalable backend APIs for web and mobile applications.
- Implemented server management, authentication, and admin panel functionalities.
- Ensured API security, performance optimization, and maintainable code architecture.

Ingage

Role: Full-Stack / Backend Lead

- Built the **Ingage.gg**  gaming tournament platform, including web app, backend services, and admin panel.
- Developed REST APIs, managed server infrastructure, and handled cloud deployments.
- Ensured real-time data handling and optimized backend performance for competitive gaming workflows.

Hiphop

- Designed, developed, and maintained a **short-video social platform similar to TikTok**, building scalable backend APIs, managing servers, and developing a full-featured admin panel.
- Implemented and supported **livestreaming functionality**, handled server provisioning and installations, and ensured ongoing application stability, performance, and maintenance.

Club92

Created and manage Club92, a live audio space platform like Clubhouse, handling backend APIs, server management, and installation.

Shaadiabroad

Role: Full Stack / Backend Developer

- Managed backend systems for **ShaadiAbroad.com** , focusing on **security, scalability, and performance**.
- Integrated event management features and enforced **data privacy and compliance standards**.
- Maintained optimized database operations and stable production deployments.

Gtcree

Role: Backend Developer

- Developed a modern **e-commerce platform** for LED lighting products.
- Built backend APIs, admin panel, and optimized shopping workflows.
- Ensured secure transactions, efficient product management, and smooth user experience.

Bracktix

Role: Senior Laravel Developer

- Architected and optimized backend services using **Laravel, MySQL, Redis queues, and caching**.
- Implemented secure authentication using **Laravel Sanctum**.
- Ensured system scalability, performance optimization, and secure cloud deployments.

Almaha

Role: Full-Stack Developer

- Developed a digital healthcare platform using **React.js, Node.js, Express, and PostgreSQL**, enabling seamless doctor-patient interactions with real-time consultations, appointment scheduling, and secure data management.
- Focused on building scalable backend APIs and ensuring data security and HIPAA compliance for patient privacy.
